Description

Currently, for a single user request up to 1+n+1 (where n is the number of methods) e-mails are send. It's a bit annoying to receive them all if someone is interested only in all computations being done.

The nice solution would be to include a group of check boxes near e-mail address field with options like:

- preparation ready
- single method results ready
- all methods results ready
- results deletion in 3 days

I think notification about deleted results is useless. One can't do anything about it anyway, so no option for it should be given.

History

#1 - 05/08/2007 02:07 PM - Anonymous

- *Status changed from New to In Progress*

Already on the (internal) agenda.

Feature will be added in one of the future releases.
