

ProCKSI - Bug #42

Check (number of) input files at the beginning of each similarity calculation

12/03/2007 06:41 PM - Anonymous

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Anonymous	% Done:	0%
Category:	ProCKSI	Estimated time:	0.00 hour
Target version:	8.5		
Resolution:	fixed		
Description			
<p>- Current State:</p> <ul style="list-style-type: none">- Required files are packed (TGZ) and transferred from the storage element to the compute node.- There, they are unpacked automatically.- The driver for the similarity calculation get the file list from the database, not from the file system. <p>- Problem:</p> <ul style="list-style-type: none">- The files on the file system might not be present due to TGZ/transfer errors <p>- Solution:</p> <ul style="list-style-type: none">- Check the number of expected files at the beginning/end of each calculation- Check the number of successfully calculated jobs.- If any of them is false then set the status of the entire task to "finished with errors"			

History

#1 - 11/23/2007 04:34 PM - Anonymous

- Status changed from New to Closed
- Resolution set to fixed

(In r505) f - New similarity comparison method: Vorolign
e - New design with better navigation
f - Customisable visualisation for contact maps as images and graphs
f - Customisable notification emails for finished experiments/tasks
f - Improved data security with authentication
e - Improved scheduling of all tasks

closes #3, #5, #2, #35, #42, #24, #26, #52, #32, #11, #40, #22

#2 - 11/26/2007 04:15 PM - Anonymous

(In r506) f - New similarity comparison method: Vorolign
e - New design with better navigation
f - Customisable visualisation for contact maps as images and graphs
f - Customisable notification emails for finished experiments/tasks
f - Improved data security with authentication
e - Improved scheduling of all tasks

closes #3, #5, #2, #35, #42, #24, #26, #52, #32, #11, #40, #22

#3 - 12/03/2007 05:22 PM - Anonymous

Milestone 8.5 deleted
