Resolution:	invalid		
Description			
<p>After submitting the request on [[ProCKSI]], if i go to the strcture manager and click the iHOP link, it opens a page saying "notfound".</p> <p>I think this may be because of inappropriate name of the strucutre i.e 169LA-1 (ProCKSI nomenclature) instead of 169L (PDB nomenclature).</p> <p>Cheers</p> <p>Azhar</p>
