Assignee: Anonymous	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 8.5	
Resolution: invalid	
Description	
<p>After submitting the request on [[ProCKSI]], if i go to the strcture manager and click the iHOP link, it opens a page saying "notfound".</p> <p>I think this may be because of inappropriate name of the strucutre i.e 169LA-1 (ProCKSI nomenclature) instead of 169L (PDB nomenclature).</p> <p>Cheers Azhar</p>
