Target version:	9.0			
Resolution:				

Description

Automatically check jobs in PBS using cron.

Detect killed jobs and set status in database accordingly.

History

#1 - 07/03/2007 06:11 PM - Anonymous

- Status changed from New to In Progress

Generalisation:

- do not rely on drivers to update their own status in the database

- check status of all jobs (currently requests and tasks) in PBS

- update database with status for "queued"/"started"/"completed"/"deleted"(?)

- should go into check_requests.pl and check_tasks.pl

- should be removed from driver_XXX.pl
